N1

LUMIN

Network isolation for your entire Hi-Fi system

With 4x SFP fibre ports and an external 10M clock input, LUMIN N1 provides the ultimate clean-data network Foundation

4x Fibre SFP ports allow Complete electrical isolation for your sensitive hi-fi components

6x RJ45 ports provide the flexibility and convenience of connecting all your equipment to the same hub

Internal Linear Power Supply featuring an extra-large toroidal transformer

10M External Clock Input allows for synchronisation with either LUMIN U2X or an external master clock for absolute timing accuracy

Zero configuration required

Aluminium chassis construction based on LUMIN D3 and U2 Mini

Available in the same anodised black or raw silver finishes as the rest of the LUMIN range

INCLUDED IN THE BOX:

LUMIN N1 Network Switch
Power Cable (IEC cable for your country's power supply)
2x SFP LC Modules
Optical Network Cable
RJ45 Ethernet Cable
Quickstart Guide
Safety Information

NETWORK CONNECTIONS:

6x Gigabit Ethernet Network (1000BASE-T) RJ45
4x Industry-standard Gigabit SFP

10M CLOCK INPUT:

50 Ohms on BNC

POWER SUPPLY:

Internal toroidal linear
Low-noise linear regulator
Shielded power supply compartment for reduced interference with delicate electronics

PHYSICAL:

Finish:
Black anodised aluminium
Raw anodised aluminium

See website for latest information

PHYSICAL: 360mm (W),
236.5mm (D), 60.5mm (H), 2.5kg
